Scott,

We have made some additional progress since our last discussion. We have explored a few different ways to plug our funding gap and while we don't have it all figured out yet we have learned a lot. I have had conversations with the Orange County School board employee in charge of facilities and he has committed to me that he would let me know by the end of next week what the options would be to acquire the property as well as what the process would be.

I hope your Toronto meeting went well and you are still interested in being involved with this project. Please let me know when it is convenient for you to talk so we can continue begin to finalize proposed deal terms.

Sincerely,

Scott,

I've attached the economic feasibility study that our consultant put together for the City regarding baseball. I also wanted to follow up and find out if you had any further thoughts, questions, etc. about our meeting on Tuesday.
