

Tired of **TRAFFIC** ▶

and battles for Park Space

in Winter Park?

If YES, please vote for Sandy Womble this Tuesday, March 11th

Elect **SANDY WOMBLE**

☆☆☆☆☆☆☆☆☆☆
WINTER PARK COMMISSION

From **Sandy Womble**

I believe we need to develop a visionary master plan to guide proposed development along 17-92 and other major corridors. Let's be mindful of our quality of life as we move forward. Traffic and lack of park space threaten to diminish our community character. I hope you share my concerns and will consider voting for me this Tuesday.

★ Did you know?

1

The The City Commission may turn most of Martin Luther King Jr Park (the park off Denning) into a \$25-35 million stadium for Minor League Baseball and Rollins College. While they say MLK park would only be used 100 nights annually, they fail to consider all of the football, soccer and lacrosse youth leagues that practice there nearly every evening. What traffic nightmares would this create at 17-92 and Fairbanks? **We must protect this park for our children and grandchildren to play youth sports.**

SANDY would VOTE

2

The The City Commission is also considering extending Lee road past 17-92 all the way to Denning. Can you imagine the backups on 17-92 without a thru lane at Lee Rd? **Most mornings and evenings the traffic would be even more unbearable and encourage commuters to cut through our neighborhoods. Let's think before we re-route traffic!**
